

## UI Designer/Production Specialist

We're looking to add a UI Designer/Production Specialist to support our UX design team efforts. The ideal candidate has a passion for getting things done.

### Responsibilities

- Collaborate with UX teams to develop wireframes, storyboards, and rapid prototypes.
- Work closely with UX team lead and Interaction designers to design and produce final graphical assets for use in documentation and production code.
- Implement existing design systems/frameworks to meet defined user needs
- Refine draft concepts into finished design products.

### Desired Skills and Experience

#### *Requirements*

- 3+ years UI Design/Design Production experience
- Must be fluent in Adobe Illustrator and Photoshop including advanced techniques such as the use of symbols, styles, libraries, and complex layers/ group editing.
- Self-directed with strong problem solving skills
- Ability to effectively collaborate with a wide range of team members and personalities
- Experience in a fast-paced environment
- A desire to learn, a strong work ethic and a good sense of humor

#### *Bonus Experience*

- Fluent with PowerPoint and Visio (or Omni Graffle)
- UX Wireframing Experience

### Term

Full-time but also open to contract-to-hire, or contract as appropriate. (Comprehensive benefits package available for full-time employee.)

### About ConnectFive, Inc.

We are a User Experience (UX) Consulting company that helps clients improve the user experience of their interactive products and websites. We apply thoughtful analysis and user-centered design methodologies to design user experiences that are meaningful for the user and effective for business. Based in Iowa City, we work with regional and national clients across a variety of industries. We value good design, happy users and enjoy doing what we do.
